--

4) Originality, Novelty, and Domestic and International Positioning of the Research Project

1. Please explain the originality and novelty of your research.
2. Please explain the strength of your proposed research, specifically focusing on what makes your research unique from similar research.

--

5) Academic and Social Importance of the Research

1. Please explain anticipated scientific, technological, and social implications of your proposed research project.

2. Please explain how your research interest might develop in the future.

6) Research Strategies and Feasibility

1. Please explain your research strategies and their feasibility.
2. Please explain the aim of your research, its scope, and expected results.
3. Please explain the estimate of approximate expenses per year for your research (The primary equipment that needs to be purchased and other expenses).

[4] Research Achievements

1) Details

1. Please elaborate on the purpose, background, and details of your research so that researchers in other fields will be able to understand. You may include figures and tables. Please provide the definitions for key terms and concepts in your research in the footnote, if necessary. (About one-two A4 size pages)

2) List of publications and conference presentations

1. Categorize your work into: (1) original papers (divided into refereed papers and others), (2) oral presentation, (3) review papers, (4) books, and (5) special notes. Please enter the author's names, paper title, journal name, issue, the first and last page, and year. Underline the applicant's name if multiple authors are listed. For published books, enter the name of authors, title, your section, the first and last page, year, and publisher. Exact order is not required, but all of your work must be included.
 2. Please indicate 5 pieces of your primary work with "o," and submit the corresponding papers via JREC-IN Portal.
- If electronic submission is not possible, please send two hard copies of each paper by post, in accordance with the application guidelines.

[5] Teaching Experience and Future Aspirations in Teaching

1) Teaching Experience (Fill out if applicable)

1. Please describe your teaching experience (Please provide the course titles, descriptions, and number of credits, categorized by lecture, seminar, laboratory, and practicum formats, and further separated by undergraduate and graduate programs. Also include effective or innovative methods of teaching you invented and describe cases that are particularly valuable from the educational standpoint). In addition, state teaching assistant experience.
2. Please list any papers, reports, and literary works related to teaching, if available. (State in the same format as research achievements).
3. Please list teaching awards or recognitions, if available.

2) Future Aspirations in Teaching (About one A4 size pages)

1. Please describe the relationship between your research and teaching, as well as your desired field of teaching.

[6] Past Competitive Funding Acquired, Application Status, and Anticipated Funding during the WTT Term

- 1) Competitive Funding Acquired by the Applicant and Shared Funding (include representative's name)

1. Please list the name of the funding organization, title, year, and the total direct expense. Please include the competitive funding from universities.
2. Please indicate if you have been selected for the JSPS research fellowship for young scientists (DC1, DC2, or PD)

--

2) Anticipated Funding during the WTT Term

1. Please describe information about expected external funding application, funding organization, amounts, if possible.

--

[7] Letters of Recommendation

Please submit a letter of recommendation from one or two researchers (academic advisers or researcher in the related research field) along with your application materials.

- (1) Please fill out the reference's name, institution, and e-mail address below.
 - (2) Please explain and provide your references the following instructions.
 - References are free to use any format, but the letter of recommendation must include "Applicant's name" and "Reference's name."
- The letter of recommendation must indicate the applicant's ability to plan research and execute research projects.
